Samsung C&T to build RM3b tower in KLCC vicinity

KUALA LUMPUR — Alpine Return Sdn Bhd, the developer of Star Development, announced the appointment of construction giant, Samsung C&T as its main builder. Samsung C&T is well-known around the world to successfully deliver landmark projects with great emphasis on quality, on-time delivery, safety and compliance. The company is best-known for the construction of Burj Khalifa in Dubai, which is currently the world's tallest building and Malaysia's Petronas Twin Towers, ranked the sixth tallest in

the world. Star Development's 58-storey vertical structure is set to be the tallest residential tower in the KLCC vicinity once fully completed in 2019. Star Development which is backed by two property developers in Malaysia — Symphony Life Bhd and United Malayan Land Bhd — will comprise Star Residences luxurious residential homes, and Star Boulevard which is an exciting Signature Retail F&B and Entertainment Hub, with a total estimated Gross Development Value (GDV) of RM3 billion.
